

## **S5 Asia (Formally Jardine Shipping Services)**

**China, Hong Kong, Taiwan, Vietnam, Singapore,  
Indonesia, Malaysia, Thailand, Philippines**

Jardine Shipping Services, market leader in shipping agencies in the Asia Pacific region, announces that it has rebranded and will begin trading under the name S5 Asia effective 10/1/15. With the adoption of its new brand and logo, S5 Asia has simultaneously launched its redesigned website: <http://www.S5asia.com>.

Jardine Shipping Services was part of the Jardine Matheson Group. Founded in China in 1832 and headquartered in Hong Kong, Jardine Matheson is a multinational corporation with a portfolio of businesses focused primarily on Asia.

The rebranding to S5 Asia follows the acquisition of the shares of Jardine Shipping Services from Jardine Pacific by S5 North Europe on June 30<sup>th</sup>, 2015. The rebranding strongly supports S5's vision to create the leading ship services company in the world.

S5 Asia provides a comprehensive range of port agency and liner agency services, working out of 52 port offices that cover 200 ports in Asia. Both S5 North Europe and S5 Asia are shareholders of S5 Agency World, the fastest growing port agency organization in the world, offering their customers a wide scale of services with a second-to-none service.

### **Quality**

In a perpetual quest to provide quality in all aspects of service, S5 Asia is ISO 9002 accredited by Lloyd's Register of Shipping in most operating countries. In addition, in each country where S5 Asia operates, they strive to exceed standards established by leading national quality bodies. This ensures the delivery of consistently excellent services no matter which office is working with you.

### **Port Agency**

Through the dedicated and professional staff at S5 Asia, we ensure your vessels enter and exit a port quickly and efficiently. From pre-arrival to post-departure, S5 Asia personnel pay particular attention to accurate and speedy communication when handling overall disbursement control.

S5 Asia is proud of their expertise in handling all types of vessels from sophisticated gas and chemical carriers to strongly service-oriented cruise liners. In addition to the full range of basic services, S5 Asia is often called on to assist their principals to conduct market feasibility studies and provide standard port cost templates.

S5 Asia's extensive network enables them to offer a regional hub service. You will benefit from centralized funding and disbursement accounts submission and other services aimed at reducing your administrative expenses.

### **Liner Agency**

S5 Asia represents a wide range of liner principals through its East Asian network. From the full general agency to various elements of shipping support, their services are tailored to meet the exacting needs of principals in a fast-changing, global liner shipping environment in nine Asian countries.
